

STATEMENT OF PURPOSE

RS27614 / H0502

The purpose of this bill is to remove the requirement for "native grown product" in the production of home brewing beer. The term "native" is not defined as applied to home brewing. Home brewers would like to produce beers for personal consumption that may occasionally use products grown out of state. New language has been added to this section that defines the amounts of beer that can be produced by home brewing for personal use.

FISCAL NOTE

This bill has no fiscal impact. It does not request or require any funds at the state or local level. Implementation of this bill can be achieved through existing processes.
